THE CANADIAN ALLIANCE OF PHYSIOTHERAPY REGULATORS

CHIEF EXECUTIVE OFFICER

The Canadian Alliance of Physiotherapy Regulators (The Alliance) is the national not-for-profit federation of physiotherapy regulators in Canada. It was incorporated in 1992. The Alliance is one of only six national health professions regulatory federations in Canada. It provides leadership and support to assist its Members in fulfilling their public interest mandate. It is a respected leader recognized nationally and internationally for excellence in evaluation services and regulatory policy development.

The organization is governed by a highly committed Board of Directors, comprised of two representatives from each Member organization representing a provincial/territorial physiotherapy regulatory agency. The governance structure strives to ensure that the diverse interests across the country are valued and heard. An Executive Committee provides guidance as directed by the Board of Directors. The staff numbers eleven people, located in Toronto. The Alliance is seeking a CEO to lead its staff to continue the organization’s drive for excellence in serving its Members, who protect the public interest by regulating the practice of physiotherapy in Canada.

Candidates should meet the following criteria:

- demonstrated leadership excellence in public/not-for-profit sector—senior management level;
- comprehensive background in administration including staff and financial management experience;
- proven skills in leading and effecting positive change;
- knowledge of the role of a regulatory college;
- demonstrated skills in policy development, advocacy, based on evidence/research;
- knowledge of the relevant legislation and policy matters;
- experience in working with a Board of Directors, or other governing body;
- experience in leading multi-phased, complex projects that require collaborative partnerships with external stakeholders.

Licensed, or eligible for licensure, with a Canadian physiotherapy regulatory college is an asset, but not essential. Leadership as defined by ability to inspire trust, credibility, integrity, good judgement; foresight/vision; ability to rally others around a shared vision; and the ability to deliver planned results, is key.
